5 SIMPLE TIPS FOR ELECTRICAL SAFETY

Most electrical fires and electrical injuries can be avoided. Follow these 5 tips to begin electrical safety in your home.

1. AVOID OVERLOADING OUTLETS

Plug only one high-wattage appliance into each receptacle.

2. FOLLOW WATTAGE RECOMMENDATIONS

Only use bulbs that match a lamp's recommended wattage.

3. TURN OFF THE POWER

Always turn off appliances and devices when you leave the room. Many electrical fires are started by overheating outlets or wires.

4. KEEP AWAY FROM WATER

Electrocution is a risk when an electrical device gets wet. Keep all electrical devices away from water.

5. CALL AN ELECTRICIAN

For any electrical work you do around the house, if any electrical outlet feels hot, you hear crackling noises, or you notice frayed or split wiring.

320 new members

2 members per store per day!

HR NEWS

NEED TO KNOW

- WHEN CODING A NEW HIRE, ENSURE THAT THEIR DEPARTMENT NUMBER HAS A "1" ON THE END. THIS WILL ENSURE THEY ARE IN THE CORRECT CLASS AND GET PAID CORRECTLY.
- Please ensure we are having applicants apply through Paycor and hiring through Paycor Recruiting
- MAKE SURE WE ARE COMPLETING 30 AND 90 DAYS BEFORE THE END OF THE MONTH.

TAX SEASON - W2'S

If you are still looking for your W-2s, they can be accessed by going to your profile, clicking on "pay" and going to "Tax and Docs" near the top of the screen.

Ensure all onboarding is complete before start of first day. This means that they can login to Paycor and clock in and out. They cannot start until this takes place.

Nothing is impossible.
The word itself says 'I'm possible!'

– Audrey Hepburn

HAPPY BIRTHDAY
